

Anjuman Arts & Commerce College, Belagavi

The Institution has good infrastructure for teaching-learning process. Its campus is spread over an area of 21 acres of land.

- The infrastructure policy of the institution is to respond to the current requirement of effective teaching and learning as much as possible, also to meet the demands of new courses.
- Infrastructural requirement matters are discussed in the IQAC meetings primarily. The IQAC finalizes the requirements after taking all aspects into consideration, and submit the same to the college managing committee.
- The management constitutes the college Building Committee, the college purchasing committee and Infrastructure maintenance committee for execution of effective planning.
- The college managing committee chalks out plans to create a new infrastructure and to renovate the existing infrastructure. After its final decision and approval the plan is executed by the building committee.

The college IQAC assigns the following duties to the Library Committee:

- The Library committee meets in the beginning of every academic year and assesses the conditions and services of the library. And makes the decisions to enhance the stocks and services of the library.
- It recommends new books & journals to purchase for the library based on the requirement arises out of the syllabus content.
- Its recommendations are evaluated at college IQAC meeting and forwarded to the committee to implement the same.
- The library committee takes feed-back from the library users and reviews them to solve grievances if any.

The institutional plans and strategies for deploying and upgrading the IT infrastructure and associated facilities:

- Regular up-date of softwares.
- Using IT Infrastructure and associated facilities for Teaching – Learning process for maximum level.
- Optimum use of UGC funds for deploying and upgrading IT infrastructure.
- Making available the new technology for the college to cope with the growing needs of communication and information technology.
- The college has the policy of providing new IT technology to the students as per the syllabus and beyond.

The institutional mechanisms for maintenance and upkeep of the infrastructure, facilities and equipment of the college.

- The college IQAC monitors that infrastructure (building) and equipment. It suggests and recommends about the up keeping of infrastructure and maintenance of equipment to the managing committee for implementation.
- The managing committee has entrusted a team with a head for maintenance and repair infrastructure and equipment. The team includes carpenters, electrician, welder, plumber, Manson, computer technicians, Xerox technicians etc. to maintain and repair the building and equipment.
